

Consultancy

Health and Safety legislation and the working practices required to meet legislative requirements can be a burden on the operation and profit centre of any organisation. Many organisations can't justify the employment costs associated with taking on their own dedicated health and safety staff to guide them through the maze of health and safety legislation.

Others do have such personnel, but find that some projects are very time consuming or require the input of a specialist, yet non-compliance with regulatory requirements carries with it severe penalties which can often cause a business to suffer great financial losses or closure.

At HSE Solutions we identify and provide the specific services you require, tailored to your organisation's needs, when and where you want them. Whatever your requirements, we provide a cost-effective solution that is right for you.

HSE Solutions already provides Health, Safety and Environmental consulting services to all sectors of business, including, Manufacturing, Service, Retail, Local Government, Health Care, Rail, Events and Construction sectors.

With a diverse and highly skilled team of consultants, who are all full corporate members of IOSH with at least 5 years of operational experience, we have extensive experience in the following services:

- Evaluation of existing health and safety policies and procedures
- Develop new or modify existing programs to establish a cost effective health and safety management system, unique to your business
- Advising on Health and Safety matters and acting as a Company's "appointed person" conducting Health and Safety audits and inspections of your workplace
- Accident investigation and liaison with enforcing authorities
- Training
- Risk, DSE, Vibration, Noise, Ergonomic Assessments
- Workplace Audits and Inspections
- Development of policies and procedure
- Planning supervisor and development of Health and Safety files

Environmental Health and Safety issues should be addressed in all areas of a business' management system and should not be a special "add on". By allowing HSE Solutions to assist your business develop the necessary policies, programs and management practices, we can help your business prevent the incidents which can lead to unnecessary injury or illness and help establish a safe productive workplace in compliance with the regulatory requirements.
